State president said even though state office has accepted all the membership till 31st July why there were so many direct members?

Dr. D. Vinola raised a objection that there were so many direct members this time and a pathetic situation that there were are around 26 members from IDA-Salem branch. She also added we cannot accommodate the direct members because till 31st July we accepted all the application but they haven't submitted any application or paid their branch share to local branch. She requested head office and state office not to allow them in any branch and don't allow them to vote in the upcoming election.

Dr. Vinola also mentioned that even the payment has been not done by the member and they were encouraged by adjacent branch to become a direct member.

Dr. Rajasigamani said that as state secretary election will take place this year the association is heading towards another legal issue as same like 2014. So he requested not to encourage the direct member to vote in the upcoming election and also requested to cancel the direct membership from head office.

Dr. A. Thangavelu questioned why the direct membership has been encouraged by the head office. It is total confusion for local branch as well as state office.

Dr. G.P. Surendran said he was fighting for this issue for past 20 years but no one supported me and said the direct membership induction will create more confusion in the local branch and state branch. He also added how a member can be accommodated without application, attached documents and the branch share into the local branch. He strongly condemned this attitude.

State president said state office won't encourage the direct membership and also said all this 279 direct members payments has been made by single person, so better not to give them voting rights this year.

Dr. Ravishankar, Dr. K.A. Annamalai from dharmapuri also emphasised the same.

State secretary said we have received this information from head office on first of August that around 279 members has become direct members within a week and requested state office to enquire.

We state office has written a letter to all the 279 members to submit their application and attached documents within 20th August to process their membership and also said the date of receiving application will be their enrolment date of their membership. Only 69 applications till date and were received and a written letter has been sent to head office stating that only 69 applications received till 20th August and requested head office not to give voting rights for all the direct members from IDA-TN. Head office accepted our request and said they will not add their names in the voters list.

Dr. G.P. Surendran said bring a resolution in the state EC that infuture direct membership should be abolished from head office and no one in tamilnadu should become direct member. He also requested to all the CC members to bring a resolution in the next CC. After a brief discussion, floor unanimously decided not to give voting rights to any direct member from IDA-Tamilnadu.

State president announced that our State EC has decided not to give voting rights to the direct members and he also said resolution also passed for same. Floor approved.

Proposed by Dr. G.P. Surendran, Seconded by Dr. Arunkumar.

State secretary said as per the constitution state office will conduct the AGM at State secretary town Salem.

Dr. A. Thangavelu raised a question on the planned date for AGM. State secretary said it will be discussed with state president and informed. Dr. A. Thangavelu said as its state secretary election year not to drag the date, it will be good to inform the date soon.

State president said next State EC meeting will be on November 6th and Annual General Body meeting will be on December 4th 2022. EC accepted.

Dr. Kinsley Selvakumar raised a question why AGM & Election in same place. State president replied its always duty of state office to conduct the AGM and Election and it will be easy for them to carry all the records. Dr. Kingsley Selvakumar raised as another question that president elect also from same place why not to conduct the AGM and election in some other place.

State secretary said that seen Head office conducts its AGM where Hon. Secretary General resides so there is no chance of shifting AGM to any place rather than salem.

State president said AGM will be conducted in salem on December 4th 2022 and requested the floor to approve. EC accepted. State president came up with a suggestion of election being conducted online this year. State president elect Dr. Baby John also emphasised the same.

State president replied that there were no election last year and we brought a resolution in AGM considering the strength of IDA-Tamilnadu. He also added most of the speciality association, & IMA has changed their election process to online and IDA can also change.

Dr. Rajasigamani suggested not to think about election in online or offline mode and rather a compromise between the contestants to avoid all this group fights due to election.

State president replied we are also in favour of compromise but state office has to be ready for everything either its online or offline so we need an approval from floor.

Dr. Radhakrishnan requested the EC to conduct the election online. Dr. Surendran also emphasised the same and majority of the members supported for online election.

State president elect Dr. Baby John said since the present state secretary is contesting for the state secretary post so its better to conduct the election online. If it is offline it may favour the state office, so he opted for online and he also said elections should be conducted online in future also.

State secretary mentioned that since he belongs to salem and he is to contest for the state secretary election, he is ready for any option whether it is online or offline, which ever floor decides.
